SEHBAZ RAFIK

WEB DEVELOPER

PERSONAL PROFILE

I am a developer who is keen and passionate about building Web Based applications and who has experience in a variety of languages and technologies.

I am always looking to increasing my skills set, with one of my greatest strengths being the ability to quickly learn and become proficient in technologies that are new to me.

I am an active contributor to open source projects, and I am a member of the LeicesterJS meetup group.
